MOHAMMAD AHMAD

Full Stack Software Engineer | .NET Core • Angular • SQL Server
Doha, Qatar • +974 7407 2956 • mjawabreh2000@gmail.com • LinkedIn

PROFESSIONAL SUMMARY

Full Stack Software Engineer with 3+ years of experience building enterprise web applications across .NET Core, Angular, and SQL Server. Currently owning the Angular frontend on a large-scale government platform at Flora Group (10+ modules, 100+ users), with end-to-end responsibility for architecture, performance, and delivery. Strong working knowledge of Clean Architecture, CQRS, and MediatR. Trusted to take features from database schema through to production UI inside small agile teams.

TECHNICAL SKILLS

Backend: C#, .NET Core, ASP.NET Web API, Entity Framework Core, Clean Architecture, CQRS, MediatR, Microservices, REST APIs

Frontend: Angular, TypeScript, RxJS, React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design

Database: SQL Server (SSMS), T-SQL, Stored Procedures, Database Design & Optimization

Tools & Practices: Git, Azure DevOps, BizTalk, Postman, Agile/Scrum, Code Reviews, Unit Testing

Languages: English (Professional) • Arabic (Native)

PROFESSIONAL EXPERIENCE

Software Engineer | Flora Group — Doha, Qatar *Aug 2025 – Present*

- Selected as one of 4–7 core engineers to deliver a large-scale government enterprise platform spanning 10+ modules and serving 100+ users across departments.
- Own end-to-end Angular frontend architecture — component design, routing, state management, and reusable UI patterns — driving consistency across every module in the platform.
- Build .NET Core Web APIs using Clean Architecture, CQRS, and MediatR, keeping business logic decoupled and modules independently testable as the system scales.
- Design SQL Server schemas and stored procedures (SSMS) backing complex workflows, approval chains, and operational reporting for government users.
- Translate ambiguous government requirements into shippable features within tight agile cycles, coordinating directly with product owners and QA.

Associate Software Engineer | Estarta Solutions — Amman, Jordan *Mar 2023 – Nov 2023*

- Delivered full-stack features on .NET Core applications integrated through Microsoft BizTalk Server, enabling reliable data flow between enterprise client systems.
- Designed and shipped REST APIs that supported third-party integrations and powered downstream client workflows.
- Drove down recurring production defects by tightening code review standards and expanding unit test coverage on the modules I owned.

Software Engineer Trainee | Estarta Solutions — Amman, Jordan *Oct 2022 – Mar 2023*

- Completed a structured React.js program and shipped multiple production-ready UI components in JavaScript (ES6+), HTML5, and CSS3.
- Promoted to Associate Software Engineer at the end of the program based on delivery quality and team feedback.

Content Moderation Analyst | Concentrix — Amman, Jordan *Sep 2023 – Aug 2025*

- Consistently exceeded accuracy and throughput KPIs on a high-volume moderation queue; mentored junior moderators and contributed to workflow improvements.

EDUCATION

B.Sc. in Computer Science *Jan 2023*
The World Islamic Science & Education University — Amman, Jordan · *GPA: 81.4 / 100 (Very Good)*
